

SILENT FOREST

MERCHANDISE CATALOGUE

The EAZA Silent Forest Conservation Campaign, in cooperation with its partners, aims to raise funds to support conservation projects in the region of Southeast Asia. Our goal is to raise at least € 400,000.

You can help us to reach this target by purchasing some of our great merchandising products!

Songbirds in Asia are threatened with extinction due to excessive and strongly cultural rooted consumption of wild songbirds for trade, songbird competitions, pets, export, traditional medicine and food. This campaign aims to save a number of songbird species by increasing knowledge, awareness and commitment to do action within and beyond the zoo community. Together EAZA zoos aim to raise 400.000 Euro for in-situ conservation and we believe that this target is achievable if zoos, organizations and individuals all work together to raise funds. Let's make a great campaign and help reduce the effects of the Asian Songbird Crisis! Learn more on www.silentforest.eu

The Process

The EAZA Silent Forest Conservation Campaign, in cooperation with its partners, aims to raise funds to support conservation projects in the region of Southeast Asia. Our goal is to raise at least € 400,000. We need your help to reach this target, therefore we would like to encourage you to purchase some of our great merchandising products.

€ 240,000 will be divided among six priority projects, which have already been pre-selected to receive funding (for more background information please check <https://www.silentforest.eu/projects/>). As official campaign participant, you will have the opportunity to select the project which you would like to support. The progress bars on the Silent Forest website allow you to track the amount of funds raised for a particular project.

Once the initial fund-raising targets for the pre-selected projects have been reached, a general grant scheme will be announced. This will welcome grant applications for funding for other Asian songbird conservation projects. We believe that this is an achievable target if zoos, other organizations and individuals contribute to raise funds. Let's make every effort to have a successful campaign and to help support Asian songbird conservation.

In order to achieve the minimum production costs on merchandise, orders for all campaign participants will be processed together in four batches. Therefore, there are four deadlines for final orders and payment.

Deadlines for final orders and payments: 15.3.2018, 30.9.2018, 31.1.2019, 30.6.2019

All the prices listed in the catalogue already include a contribution for the Silent Forest campaign. Except from the costs (purchase price and delivery costs) all the profits from the retail sales of the merchandise will go to the campaign. Each organization can also decide which of the pre-selected projects they want to support when placing their orders. If no pre-selected project is specified, gathered funds will be incorporated into the general grant scheme. 30 EUR will be charged for transport and delivery cost outside Czech Republic.

Please contact the campaign office manager, Barbara Tesarova on tesarova@zooliberec.cz if you are interested in purchasing any of the Silent Forest merchandise, or if you require any further information.

Unfortunately, there is a minimum order limit on some products, so we can't guarantee the delivery of all ordered products. After collecting all the orders from the participants, the Silent Forest campaign office will inform you about the availability of each product. The participants will make payment after a confirmation has been received from the campaign office.

EAZA Campaign Office (Zoo Liberec):

- collects all orders
- confirms the availability of the products and total amount to be paid for each order
- process all orders
- prepares the bulk product order for each of the companies
- makes payment for delivered goods from individual producers. The goods will be delivered to the Silent Forest Campaign Office (ZOO Liberec).
- distributes the ordered products to each zoo transfers the financial profit to the campaign bank account of EAZA, so the money can be further distributed among preselected projects or added to the general grant fund.
- informs EAZA about the project preferences of each zoo

EAZA office: transfers the relevant amount to the individual projects or to the grant scheme
